Elevating Ethical Practices In Pharmacy Profession- Session 5 (2021-01-22 at 21:31 GMT-8)

**Profession/ Industry – Distinguishing Characteristics**

**Research & capital intensive**

- 10 to 15 yrs. lead time in 3-phase Clinical Trial
- Successful NCE development cost estimate – US\$ 1.3 Bn. (ex mktg. expenses)<sup>1</sup>

**Drug discovery/ development risky – profitability ???**

- 1 in 5,000 to 10,000 potential compounds tested succeeds
- Only 3/ 10 Rx product in USA generate revenues that is  $\geq$  average R&D costs
- In the absence of patent protection, imitators could copy the new medication
- Patents nominally last 20 yrs. – average effective patent life is about 11.5 yrs. (time is lost in the development & distribution of the new drug<sup>2</sup>)
